## Parent University

Parent University classes will be coming soon! In February, Efrain Ramirez from the Child Abuse Prevention Council will be covering topics such as positive discipline, setting limits and mental and emotional health. More details will be coming soon.

## Student Safety

Teachers, parents and community members, thank you for making our new traffic flow a huge success. Please remind students to use the crosswalks at all time. We have strategically placed people at each cross walk to ensure student safety. Parents, please do not motion your children to cross the street or parking lot.

## Common Core

In order for students to be successful with common core mathematics they must engage in conversation at least 50% of the time during math instruction. Check out this common core anchor chart on math

talk.

## Thank you to our Donors

Avery special thank you to the anonymous donors who sponsored one of our families during the holidays. They provided this deserving family with a Christmas tree, bikes for all the children, gifts for each family member and non-perishable food.

Also, thank you to the office of Simon Salinas for donating turkeys and groceries to four of our families! Our families truly appreciate your support!
